Unruly Souls Kristin M. Peterson, 2022-07-15 Amid growing digital activism to address gender-based violence, institutional racism, and homophobia in U.S. society, Unruly Souls explores the intersectional feminist activism among young people within Islam and Evangelical Christianity. These religious misfits—marginalized from traditional religious spaces due to their sexuality, gender, or race—employ the creative tactics of digital media in their work to seek justice and to display their fundamental equality in the eyes of God. Through an analysis of various digital projects from hip-hop music videos and Instagram accounts to Twitter hashtags and podcasts, Kristin Peterson argues that the hybrid, flexible, playful, and sensory nature of digital media facilitate intersectional feminist activism within and beyond religious communities. Drawing on work

from queer theory, decolonial theory, and Black feminist theory, this study explores how those who have been marginalized are able to effectively deploy their disregarded status along with digital media tactics to cultivate empathetic communities for those recovering from religious trauma.

The Food Network Recipe Emily L. Newman,Emily Witsell,2021-04-06 When the Television Food Network launched in 1993, its programming was conceived as educational: it would teach people how to cook well, with side trips into the economics of food and healthy living. Today, however, the network is primarily known for splashy celebrity chefs and spirited competition shows. These new essays explore how the Food Network came to be known for consistently providing comforting programming that offers an escape from reality, where the storyline is just as important as the food that is being created. It dissects some of the biggest personalities that emerged from the Food Network itself, such as Guy Fieri, and offers a critical examination of a variety of chefs' feminisms and the complicated nature of success. Some writers posit that the Food Network is creating an engaging, important dialogue about modes of instruction and education, and others analyze how the Food Network presents locality and place through the sharing of food culture with the viewing public. This book will bring together these threads as it explores the rise, development, and unique adaptability of the Food Network.

Why We Can't Have Nice Things Minh-Ha T. Pham, 2022-08-08 In 2016, social media users in Thailand called out the Paris-based luxury fashion house Balenciaga for copying the popular Thai "rainbow bag," using Balenciaga's hashtags to circulate memes revealing the source of the bags' design. In *Why We Can't Have Nice Things* Minh-Ha T. Pham examines the way social media users monitor the fashion market for the appearance of knockoff fashion, design theft, and plagiarism. Tracing the history of fashion antipiracy efforts back to the 1930s, she foregrounds the work of policing that has been tacitly outsourced to social media. Despite the social media concern for ethical fashion and consumption and the good intentions behind design policing, Pham shows that it has ironically deepened forms of social and market inequality, as it relies on and reinforces racist and colonial norms and ideas about what constitutes copying and what counts as creativity. These struggles over ethical fashion and intellectual property, Pham demonstrates, constitute deeper struggles over the colonial legacies of

cultural property in digital and global economies.

Extending Play Alyxandra Vesey, 2023-12-29 *Extending Play* examines the ubiquity of brand partnerships within the contemporary music industries. Though brand partnerships exist across all media industries, they are a distinct phenomenon for the music business because of their associations with fan club merchandise, concert merchandise, and lifestyle branding. It also foregrounds women's participation in shaping these economies through fan labor and image management. While brand partnerships are common among male and female musicians, this book focus specifically on how female-identified musicians use them tactically to extend their commercial and creative longevity after they have established their recording careers by commodifying their creative acumen with either hegemonically feminine cultural knowledge or traditionally masculinized skills through branded consumer goods that they make in partnership with companies associated with the beauty, fashion, food, or musical equipment industries. Through textual and discourse analysis of artists' songs, music videos, interviews, social media usage, promotional campaigns, marketing strategies, and business decisions, *Extending Play* investigates how female-identified musicians co-create branded feminine-coded products like perfume, clothes, makeup, and cookbooks and masculine-coded products like music equipment as resources to work through their own ideas about gender and femininity as workers in industries that often use sexism and ageism to diminish women's creative authority and diminish the value of the recording in order to incentivize musicians to internalize the demands of industrial convergence--
