Proceedings of the 1st UMSurabaya Multidisciplinary International Conference 2021 (MICon 2021) Sofia Februanti, Mundakir Mundakir, Yelvi Levani, Puspa Liza Ghazali, Jumadil Saputra, Mujiarto Mujiarto, 2023-05-12 This is an open access book. Internationalization is one aspect of becoming qualified in this globalization era, especially for higher education levels. In this particular era when everyone is locked down due to Covid 19 Virus, the academic activity must still run. It is correlated with vision of Universitas Muhammadiyah Surabaya as an international standard university so that it can compete with universities at national or international level. During Pandemy, many obstacles occur then it is also led with many opportunities.

Proceedings of the Tapanuli International Health Conference 2022 (TIHC 2022) Sukhri Herianto Ritonga, Nefonavratilova Ritonga, Adi Antoni, Febrina Anggraini Simamora, Nurul Hidayah Nasution, 2023-02-10 This is an open access book. Covid-19 has shaped many new perspectives on the order of life around the world. This perspective encourages humans to get used to a life model that is different from the life model before the pandemic era known as the new life order. This new life order will certainly have an impact on all existing aspects, such as health and economic

aspects. At a time when this infectious disease continues to spread throughout the world and no one sure when it will end, degenerative diseases continue to show an increasing trend in the number of sufferers from time to time. It has resulted in an increasing burden on health services. So that an effective and efficient solution is needed to control this situation. Degenerative is a disease due to decreased function of the existing systems in the body. It occurs due to hereditary factors, an unhealthy lifestyle or aging. Degenerative diseases occur in all systems, such as the neurological system, cardiovascular system, endocrine system and musculoskeletal system. The result of this disease is a gradual decline in the quality of life of the sufferer. Various disciplines in the health sector have an important role in controlling or preventing this disease. Such as in the fields of medicine, nursing, midwifery, public health and pharmacy. One of the roles that can be shown is from the aspect of health research. Research requires clear consideration in its implementation and have to consider the outputs that obtained from it. Research with broad impact on the control and prevention of degenerative diseases needs benefit of the users such as the community immediately to achieve a healthy and productive society in the Pandemic era of the Covid-19. Various effective and efficient comprehensive approaches need to be studied more deeply to find the best solution, such as implementation of various scientific meetings. One of them is through the idea of implementing the 2022 Tapanuli International Health Conference. This scientific meeting will bring together various experts and researchers to share the latest information regarding the prevention of degenerative diseases, as an effort to create a healthy and productive society.

Proceedings of the 1st International Conference for Health Research - BRIN (ICHR 2022) Ika Nurlaila, YuneFit Ulfa, Hayani Anastasia, Gurendro Putro, Rika Rachmalina, Rozana Ika Agustiya, Novaria Sari Dewi Panjaitan, Rosantia Sarassari, Anna Lystia Poetranto, Sela Septima Mariya, 2023-04-02 This is an open access book. The National Research and Innovation Agency (Acronymized in Bahasa as BRIN, Badan Riset and Inovasi Nasional), the Republic of Indonesia was launched in 2021 and has been the only one of Indonesia authorized research institution since. The Agency embodies throughout department and non-department research bodies in Indonesia and answers and thus responsible directly to the President of Indonesia. Despite its juvenile age, BRIN is in a tight competition with urgencies of untangling unresolved issues in various aspects in collective life as a nation and a state spanning socioeconomic and culture to medicine and its translational derivatives. To function as effectively as expected, BRIN has launched 12 research organizations with each is accountable for a specific research field as reflected by the expertise of the pertinent researchers. Among those, Research Organization for Health was established as an answer to the major challenge of overcoming national burdens which are holistically captured as the roadmaps of SDG's Indonesia where Health stands specially as the top three priority and regarded as Good Health-Wellbeing. It is clear that what have been produced through long chain of processes in the research chambers must be driven forward and translated accordingly to reach downstream utilizations in such a way that the good health and well-being are reachable in any levels. As to manifesting these goals into realization, knowledge sharing is

deemed to be a plausible vehicle. This enables disseminations of most current research projects related to health across research institution, regionally or globally. Therefore, we see the need to organize our very first international conference that is, further, set as one of our annual events with contemporary umbrella themes. We welcome researchers, scholars, and practitioners in health and health-related fields to share their insightful research results in our conference. The general objective of BRIN's 1st International Conference for Health (ICHR) is to facilitate dissemination and exchange of most recent progresses made across research institutions and to promote prospectus multi-nationals and or multi-institutional collaborations to achieve the good-health and well-being.

IGC 2018 Paolo Manunta, Nining Indroyono Soesil, Hesti Meilina, Yunardi, The conference is hosted by Program Pascasarjana Universitas Syiah Kuala (recognizably abbreviated as PPs UNSYIAH), the largest and the oldest national university in Aceh. Proceedings of the 2nd International Conference on Democracy and Social Transformation (ICON-DEMOST 2023) Naili Ni'matul Illiyyun, Endang Supriadi, Ririh Megah Safitri, Masrohatun Masrohatun, 2024-01-05 This is an open access book. Faculty of Social and Political Science, State Islamic University Walisongo Semarang, has been playing significant roles in building global peace and justice by conducting scientific research and creating a space for academic dialogue and discussion. This goal is in line with our vision to be a Research Faculty based on the unity of sciences for humanity and civilization. As part of the efforts to create a space for academic dialogue at a global level, we organize an international conference which aims to develop scientific knowledge, build institutional capacity, and strengthen international networking. The conference is also held to support State Islamic University Walisongo Semarang in achieving its vision to be an Islamic world-class university. The conference raises the issue of democracy and social transformation to capture the social and political dynamics. The selection of this topic is based on the idea that technological development is becoming a crucial issue within modern society in which people tend to experience alienation within the rapid social and political transformation.

Democracy as a political system that ensures transparency, citizen participation, and human rights protection is now under threat. Having the fact that there is a growing tendency of using transactional politics to win political interests such as the use of money and identity in political processes, therefore, political analysts consider this situation as the regression of democracy. Rapid social and cultural transformation as a consequence of advanced technology creates problems in modern society. On one hand, technology has made the life of people easier. However, on the other hand, the sense of humanity's values and principles is declining. This situation can be observed in the decrease in social solidarity and the rise of individualism. Modernity that values productivity and economic growth has brought a negative impact on the life of human being and nature. The exploitative character of industrialization has created an ecological crisis. Advanced information technology has loosened social cohesivity and the rise of instrumental rationality has removed local genius or local wisdom from the life of society. Since the ultimate goal of humanity is respecting the dignity of human beings, hence, bringing back humanity to the center of the development program is crucial, especially in the current social and political dynamics. In the political context, humanity means respecting the basic rights of the citizen and putting them as a subject of political development and not perceiving citizens as only an instrument to win political power. Based on the above background, this conference is organized. The overall goal of the conference is to mainstream humanity in the current social and political change. The conference is also expected to be an arena for scholars and experts in social and political science as well as practitioners and policymakers to meet and exchange ideas and perspectives for a better future of our society.
